

Aditya Chandrajit Deore

8010767685 | adityadeorework@gmail.com | linkedin.com/in/aditya-deore-3a725a263 | github.com/AdityaxDeore

Objective

Motivated AI & Machine Learning developer with full-stack foundations focused on building data-driven, scalable applications. Enthusiastic about learning, contributing to real-world solutions, and growing through hands-on engineering experience.

Education

Pimpri Chinchwad College of Engineering (PCCOE), Pune

2024 – 2028

Bachelor of Technology in Information Technology

Savitribai Phule Pune University

Technical Skills

Languages: Python, C++, JavaScript, TypeScript

AI & Machine Learning: TensorFlow, PyTorch, Scikit-learn, Pandas, NumPy, ML Pipelines

Frameworks & Libraries: React.js, Node.js, HTML5, CSS3, REST APIs

Tools & Technologies: Git, GitHub, Linux, Docker (basic), Cursor AI, GitHub Copilot

Soft Skills: Leadership, Team Collaboration, Problem Solving, Communication, Time Management

Experience

ITSA – (Information Technology Students Council)

2025 – Present

Web Development Associate — PCCOE

- Develop and maintain websites for student initiatives and technical events.
- Design responsive user interfaces to improve accessibility and usability.
- Contribute frontend and backend code for AI/ML student projects.
- Collaborate with GDG and MLSC teams for event deployments and technical support.

VIRTUAL EXPERIENCE

Deloitte

Feb 2026

Data Analytics Job Simulation (Forage)

- Built Tableau dashboards analyzing 1,000+ records, improving reporting efficiency.
- Performed data classification and decision support analysis using Excel.

Mastercard

Jan 2026

Cybersecurity Virtual Experience (Forage)

- Analyzed 25+ simulated phishing emails and recommended mitigation measures.
- Designed security awareness training for high-risk user groups.

Projects

Code Campus — Proctored Coding & Learning Platform

Sept 2025 – Feb 2026

React, Node.js, MongoDB, TypeScript | github.com/AdityaxDeore/codecampus

- Built a VS Code-style IDE for real-time code execution.
- Implemented secure proctoring to prevent cheating during assessments.
- Architected scalable full-stack system for coding workflows.

Clarity — AI-Powered Mental Wellness Platform

Jan – Apr 2025

React, TypeScript, PostgreSQL, TensorFlow | github.com/AdityaxDeore/Clarity

- Built an AI wellness platform with conversational support and mood tracking.
- Enabled real-time peer interaction using WebSockets.
- Built scalable backend services supporting real-time user interactions.

Brain Tumor Detection System

Aug – Oct 2025

Python, OpenCV, Scikit-learn, NumPy | github.com/AdityaxDeore/brain-tumor-detection

- Built an MRI-based tumor classification model.
- Applied machine learning algorithms to improve detection accuracy.
- Implemented image preprocessing and feature extraction pipelines.

Certifications

IBM Data Analyst Professional Certificate

Jan 2025 – Aug 2025

- Completed hands-on training in data analysis, visualization, and dashboards.
- Applied Python, SQL, and Excel for data cleaning and analysis.
- Built capstone project delivering actionable business insights.
